

NOTE: For any predicate that has the year (2021) know that there are additional predicates that are included in the graph from 2018 until 2022. The schema diagram does not show them to reduce clutter> For e.g., while this schema diagram has the predicate `kwg-lite:dollarDamageOfFiresImpactingPlace2021`, the graph also has `kwgl-ont:dollarDamageOfFiresImpactingPlace2018`, `kwgl-ont:dollarDamageOfFiresImpactingPlace2019`, `kwgl-ont:dollarDamageOfFiresImpactingPlace2020`, `kwgl-ont:dollarDamageOfFiresImpactingPlace2022`

NOTE: XX - Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, Dec
For climate/weather info data only for 2021 is retrieved for kwg-lite graph
